

# HUME CITY COUNCIL **COMPETITIVE MANUFACTURING** Business Development Program

## **Increasing global competitiveness**

With an increase in global competition, it is important for local industries to remain strong and globally competitive in a changing market.

Hume City Council in partnership with Kangan Batman TAFE and the Department of Innovation, Industry and Regional Development (DIIRD) is pleased to provide an industry course designed to increase global competitiveness by providing training in:

- Waste identification and management
- Lean 5S
- Just-In-Time processing
- and much more

See over for program information and registration.

## MAKE YOUR COMPANY GLOBALLY COMPETITIVE IN 2008

Equip your staff with the skills to deliver business outcomes and save \$\$\$

Whether you are a small business or a large organisation, Competitive Operations training can increase your ability to compete on a global scale. Invest in your people, and sign them up for training in 2008 through Victoria's number one training provider, Kangan Batman TAFE.

### Program content:

- Improved work practices
- Waste elimination
- Kanban
- Value Stream Mapping
- Leading teams and cultural change
- Facilitate continuous improvement
- Problem solving and Root Cause Analysis
- Quality tools

Our courses are aimed at implementing incremental business improvements based on understanding supply chain, business and manufacturing processes and by identifying wastes, non value add activities and opportunities for continuous improvement.

Certificate IV courses are based on minimal classroom training supported by workplace projects, which deliver real organisational change while reinforcing the individual's learning. Experienced program facilitators and trainers will work with you to ensure a return on investment is achieved.
