Peter Hardy GHD Consulting
Peter Duxson Zeobond

The Business Efficiency Network (BEN) and Hume Global Learning Village on behalf of Hume City Council present:

NEW SKILLS AND EMERGING INDUSTRIES FORUM

In Hume and across the world, we are experiencing great changes and challenges: the global financial crisis, technological developments, climate change and increasing constraints on resources.

These changes have an impact on business, organisations and industry – economic and employment opportunities have been created, and people need to develop new skills as a result.

How can we make sure that skills development and learning matches up with new industry opportunities, now and into the future?

Places are limited

RSVP:

To Cathy James by
Wednesday 11 November.
Please include dietary
requirements.
